LISBON, Jan. 12.—[By Cable and As

ciated Press.] Glynn Petre, the English Minister, on Saturday, imparted to General Curzon, the British Minister of Foreign Affairs, England's ultimatum demanding the recall of the Portuguese forces, officials and expeditions of every kind from the banks of the Shire, beyond the confluence of the Rus and south of Zambesi and from Mashonaland.

PORTUGAL YIELDS UNDER PROTEST.
The King immediately convened a cabinet council to consider the ultimatum.
The government then replied to Minister Glynn Petre that Portugal, yielding to the demands of the British, would accept the ultimatum.

It is asserted that this decision was further influenced by reports of an intention on the part of the British to make naval demonstrations at Sullimalan.

THE BRITISH LEGATION MOBBED.
A mob composed of students and others shouting "down with the Ministry," attacked the British legation today. They demolished the escutcheon on the building and smashed the windows. The police were powerless. They then broke the windows of the residences of various members

of the ministry, after which they disperse

PERU'S CONCESSIONS.

**The Grace Bondholders Secure
High Price**

LIMA, Jan. 12.—[By the Associated Press.] The Supreme Government yesterday signed the Grace bondholders' contract which was authorized by Congress October 29th last. Peru cedes for years railways from Mollendo to Arequipa, Arequipa to Puno, from Zúñiga to Arequipa, from Pasco to Ica, from Callao

also the lands necessary for their extensive importation duty free of the water required for their exploitation, and of 3,000,000 tons of guano. According to the contract the bondholders are to relieve Pe-

of all responsibility in connection with the loans of 1869, 1870 and 1872, and extend to the railroads, thus opening up immense agricultural and mining fields, and giving life to the great industries of the interior, looking for means for communication with the coast.

We are having a more than usually protracted spell of cold weather. Compared with eastern conditions, it is, however, perfect.

The weather on this coast appears to be demoralized this winter. They have been having heavy snowstorms in Arizona.

MR. JOHN W. GREEN admitted, in an interview with a Herald representative on Saturday last, that his affidavit was written out for him by an editor of the Tribune. We suspected as much. It is a cheap case of conspiracy.

The view of the snow-covered range of mountains from the San Gabriel Valley is just now wonderfully fine, with the orange orchards laden with golden fruit in the foreground. Those who have visited Europe are reminded of the view of the Swiss Alps from the plains of Lombardy.

The San Diegoan publishes a dispatch from Washington, announcing that the postmaster at San Diego had not yet been appointed. The Union, however, insists that its dispatch, announcing that Howard M. Kutchin had been appointed postmaster, was genuine.

The question of retrenchment, now before the Council, is a most important one to the taxpayers. There appears to be considerable difficulty about arriving at a satisfactory plan of accomplishing the desired result. We may remark, in this connection, that the way to retrench is to retrench. Every department should assist in the necessary work. It is a well-known fact that there is not a department in a municipality where reform is not possible. Municipal business is always carried on more extravagantly than private business. The Councilmen must all be willing to make some personal sacrifice in this matter. If every member of the city government stands up for the retention in office of personal favorites, reform will be impossible. A careful canvass should be made of the departments and a supernumerary marked. For the present Council to go out with a deficit would not only be unnecessary, but probably fatal to the chance of electing a Republican Council.

MR. HANCOCK ON CITRUS FAIRS AND AFFAIRS.

The San Francisco Bulletin contains the following, in a special correspondence in relation to Mr. Hancock's connection with the State Citrus Fair in the Sixth Congressional District, which has been appointed to be held in March next:

Mr. Hancock says he has never had any intention, nor has any of his associates, to exercise any special authority regarding exhibits, judges, or anything else, only to keep a watchful eye on methods so that affairs may show a certain official correctness that is desirable and necessary in the matters under State control. He considers attacks of Southern California journals upon him as very unjust, but at the same time he has no intention of resigning or retiring at this time from the position at the Southern fair to which he was appointed. He is of the opinion that the fair is a fair and just one, and that the citrus culture of the State is in a fair way to be established. He is of the opinion that the fair is a fair and just one, and that the citrus culture of the State is in a fair way to be established.

The force of Mr. Hancock's reasoning regarding his anxiety to "keep a watchful eye" on our Southern California Citrus Fair, so that affairs "may show a certain official correctness," is somewhat spoiled by the recent defalcation of the secretary of a State board in San Francisco with funds belonging to several counties in the State, including Los Angeles. It is also a covert insult to the citizens of Southern California, as it pre-supposes an absence of sufficient honest material in this section from which to select a responsible person to take charge of our citrus fair.

Mr. Hancock's insinuation that criticisms made upon him by Southern California journals are due to "jealousy of southern orange districts of the growth of citrus culture in the central part of the State" is simply laughable. What has Southern California to be jealous of? The Northern Citrus Belt has been talking about orange culture and planting out orange trees for 10 years, but where are the results? Where are the shipments? Has Northern California shipped a single carload of oranges yet? To the best of our knowledge, no. On the other hand, Southern California will this season ship over 2500 carloads of oranges, nine-tenths of which will have been gathered from trees set out since the N.C.B. people began planting orange trees. Of what, then, should we be jealous? The idea is absurd.

At the opening of the Orville Citrus Fair, Mr. Hancock, in a review of the progress of orange culture in the central part of the State, stated that Placer county has 50,000 orange trees growing, Yuba 20,000, and Butte fully 200,000, all planted in four years, and he drew therefrom the conclusion that "no longer can anyone dispute the claims of Central California as a citrus-growing region." In reply to this we would suggest to Mr. Hancock that the proof of successful orange culture does not consist in the planting of the trees, but in the marketing of the fruit. Bananas may be—and are—planted around Los Angeles, and will bear fruit, which occasionally ripens, but we do not on that account claim to possess perfect banana-growing conditions. A few thousand oranges exhibited at a fair do not constitute a sufficient proof of successful orange culture any more than the planting of several hundred thousand trees. This entire business of orange culture in Central California savors, thus far, too much of child's play.

As for Mr. Hancock's position in connection with our Southern Citrus Fair, he has, of course, the power to refuse to retire or resign, as he says he will; but he must permit us to retain our own opinion as to the propriety of his so acting. The probable result of his action will be that no Southern Citrus Fair will be held this year, as several orange-growing sections have declared that they will not participate should Mr. Hancock retain his position.

Under the circumstances, it certainly looks as if whatever jealousy may exist is on the other side of the house.

MAIN STREET.

It is no credit to this city that Main street is left unpared all the way from Ninth street to the southern city limits. Main street is certainly one of the principal streets of Los Angeles, if it is not the leading street of the city. If the paving of that street depends upon the energy of the people living on it, its present condition does not reflect much credit upon them. It would cost something to pave Main street to be sure, but every owner of land fronting upon it would be benefited thereby several times its cost. It may be wot of that street as with some others we wot of, that the people on it want it paved, but want somebody else to pay for it. They would pave their street if they alone could enjoy the benefit of the improvement, but that others should have the advantage, in part, of the expenditure of their money, is something not to be thought of. It is this selfish, shortsighted policy that has kept our city in the background. It kept pavements from all our streets for many years, and is keeping them from many now that are in great need of them. Of these the southern part of Main street is among the most conspicuous.

THE SEWER BONDS—WHAT SHALL BE DONE?

The difficulty of agreeing upon a plan for the voting of sewer bonds, and the almost absolute certainty of the defeat of the outfall plan, if again submitted, make the problem before the Council a serious one, and we are not surprised that that body hesitates in the matter of calling another sewer bond election. The Times has heretofore advocated "trying the case over" again, and has held to the view that the three main questions of an internal sewer system, a system of storm

drains and an outfall could be voted upon as separate questions, but at one election. The matter seemed and still seems to us clear enough; but we believe the legal advisers of the Council hold that this cannot be done. If this is so the game is blocked, unless three separate elections, on as many different days, are held. This, it strikes us, would be inexpedient, if not unfair, to one or the other of the objects to be voted for.

In this state of the case, the problem, "What then?" confronts us and demands solution.

If we understand the views of members of the Council, they hold that the present Council having submitted one plan, which was rejected, do not feel warranted in submitting a second scheme and running the risk of its suffering a like fate. A prevalent idea in the Council is that under the circumstances it would be better to postpone the matter until a new Council is elected and make the subject in its various branches an issue in the municipal campaign, wherein opposing candidates could stand or fall according to the will of the electors.

It is possible that this is a wise and correct view for the Council to take at this time, inasmuch as the questions of finance—of bonded debt and taxation—are now more than ever before questions of local importance before the people of a municipal retrenchment. Until this is disposed of, would it be wise to project upon the electoral field the bigger question of sewer bonds, involving an indebtedness of \$1,500,000? By a postponement of the time for submitting the question, the prospects of carrying the measure would be vastly enhanced; whereas, if submitted now, the chances of defeat are great—too great to be taken by the present Council.

DOUGLASS GUNN, chairman of the San Diego Railroad Extension Committee, announces in the Union that a definite proposition has been received by the committee from a well-known and responsible railroad company, who are now making surveys and are about to commence construction southwesterly in Utah. This company will, it is said, if they receive satisfactory offers of terminal and other facilities in San Diego, and a subsidy in lands and notes (payable when the whole line is completed and in operation), send proper officers to San Diego before the end of the present month fully authorized to make a contract with the people of San Diego to commence at once the construction of the road at both ends, and complete it within two years. There will doubtless be many corporations bidding for the construction of a railroad from Utah to Los Angeles, under a good subsidy. Any road that comes from Utah will of course have its actual terminus in the leading city of Southern California, whether its nominal terminus be at San Diego or elsewhere.

MR. GREEN'S AFFIDAVIT.

How and Where It Came Into Being.

The only new development yesterday in relation to the matter of John W. Green's affidavit against Col. H. G. Otis, editor of THE TIMES, was the publication in the Herald of Green's inferential admission that the affidavit was written in the office of the Los Angeles Tribune, and his direct admission that it was written by an editor of that paper.

Mr. Green claims, in the Herald interview, that he dictated the language of his affidavit to his secretary, and, apparently, that he was neither crazy nor drunk when he did it.

The admission that the affidavit was concocted and written in the office of the Tribune confirms a suspicion entertained from the first.

A further confirmation of the opinion expressed in yesterday's TIMES, that the affidavit was the result of a secret caucus, and of concerted action on the part of the Tribune editors, is found in the fact that an attempt at a fac simile of Green's signature is appended to his affidavit as printed in the Tribune. To make a fac simile signature requires previous preparation, a plate, and time. The same operation appears to have been gone through with in the case of the signature of B. E. Toney, the Justice of the Peace before whom Green recklessly swore to his affidavit.

Toney also figures in the role of certifying that Green acted like a sane and sober man when he appeared before the justice to swear to the affidavit prepared for him in the Tribune office. The parties to the transaction all exhibit solicitude over the point that Green was not drunk or crazy.

The opinion prevailed very generally on the streets yesterday that the managers of this "kidney campaign" had not been eminently successful in covering their tracks.

Meantime Mr. Green's expected appointment is not announced. And some reports continue to be forwarded to Washington.

Cutting Affray.

At 7:30 o'clock last night a telephone message was received at the police station from Officer Craig, asking that a mounted officer be sent down to the corner of Buena Vista and Walters street, to assist him in looking up a cutting affray that had been reported to him. Officer Vigiles was sent out, and, after investigation, an Italian named Pudi Magliarello was brought in and locked up on a charge of assault with a deadly weapon. The affray took place at No. 215 Buena Vista street, about 7 o'clock, the injured man being Jean Pierre, who was stabbed in the thigh, but was not seriously injured. The mother of Pierre lives in Italy, and when Magliarello came to this country a short time ago, sent a number of papers to her son. Last night when Magliarello came to Pierre's house, the latter asked him for the papers, and a dispute arose, which Pierre was stabbed in the thigh with a dagger. The case was not reported for a couple of hours, to Officer Craig, who arrested Magliarello at his house, at No. 217 Buena Vista street.

NATHAN G. YOKUM.

THE MAN WHO MYSTERIOUSLY LEFT PASADENA.

He Turns Up in Oregon, and Goes Through the Same Evolution There—A Man with a Quail in His Bonnet.

Some months ago young Mr. Yokum of Pasadena, who few very big dreams, the real estate boom at that place, and posed as one of the solid citizens of that thriving suburb, took it into his head to "mysteriously" disappear, leaving his affairs in a rather unsettled condition. The affair created something of a sensation, and for a time the papers were full of the matter. It was stated that Yokum's business was in a prosperous condition; that his domestic affairs were in the highest degree satisfactory, and that, so far as known, there was absolutely no reason for his leaving the community that had done so much for him. His relations and friends at first thought that there had been foul play, and considerable money was spent in looking him up, but the search was fruitless. He was located in half a dozen or more places. One report was that he had suddenly lost his memory, and had gone to Mexico, where he was doing well, engaged in business. Another report was that he had gone to the south, where he was working in a sawmill as a laborer, making a bare living, and apparently satisfied to be let alone. "The world forgetting by the world forgot." It was said that he refused to discuss the private affairs or give any reason for his sudden, not to say abrupt, departure from Pasadena, and did not even evince a desire to again see his family.

The sensation, like all others, ran its course, and in the course of time, Yokum and his disappearance were forgotten. It is presumed that his family joined him, and nothing more was heard about the affair. Recent developments, however, have again brought the matter before the public eye, and it is now known that the Yokum referred to is the same man, he has been at his old tricks. Under the head, "Nathan G. Yokum," the Westlake (Or.) Independence of a recent date published the following:

"Several months ago this individual was the life and soul of Falls City, and his schemes for the future were rapidly developing, and his credit was excellent, and his friends numerous. All at once he disappeared, and has never since been heard of to a certainty. About two months ago this paper received a letter from a lawyer in Los Angeles, asking that all newspaper clippings in reference to his departure be sent him, and the suspicion was on our mind that this was our Yokum, under a new name."

All at once he disappeared, and has never since been heard of to a certainty. About two months ago this paper received a letter from a lawyer in Los Angeles, asking that all newspaper clippings in reference to his departure be sent him, and the suspicion was on our mind that this was our Yokum, under a new name."

STAGE TONES.

MODJESKA ON THE SUBJECT OF STAGE TEARS.

"The Gondoliers" Coming—Do Foreign Companies Make Money in America?—Marie Wainwright as "Viola"—The Present Ages of Dramatic Stars—"The Spider and the Fly."

Our favorite actress, Modjeska, has just given through the Dramatic Mirror her views on the very interesting and often-discussed subject of "stage tears," and they are quite worth reproducing. She says:

Among the many questions addressed to actresses by interviewers and other inquisitive persons, and which one hardly knows how to answer, are the following:

"Do you shed real tears when you are on the stage?" "Is it right to do so?" "Do you play better when you cry?" "Don't tears spoil your make-up?" "If you cannot cry you cannot feel the emotions of the character you personate, can you?"

Of course the next question is: "Does Miss Z. or Mrs. X. really cry or not? Are her tears genuine or a stage trick?" And so on, *ad infinitum*. To the latter you may safely reply that, being of a less sensitive turn of mind than the questioner, you are in complete ignorance as to the nature of the lachrymose display of Miss Z. or Mrs. X. Speaking of yourself, you may also briefly dismiss the physical fact of tears, by stating, which I think is most often the case, that sometimes you do cry, sometimes you do not, sometimes you play better with genuine tears, sometimes when your eyes are dry.

How much a personator has to lose his own individuality in the assumed character; how much he has to feel its feelings, is a problem most interesting to the public and most essential to the performance.

It would be sheer conceit on my part to decide a subject which has evoked so many discussions by most competent judges. "You are to be the master of your part and not be mastered by it," says Talma; while Frederick Lemaitre, if I am not mistaken, claims that "we ought not to perform the character, but to live it." In a recent controversy in the magazines, fresh in our minds, two actors, both of the most exalted rank in the profession, have expressed opinions on this subject entirely at variance with each other. The conclusion resulting from this variety of views seems to be that there is not such a thing as a general rule. The state of mind of Talma in his highest efforts may have been quite different from that of Rachel in an analogous moment, and yet the effect obtained may have been the same.

Judging by myself, I can only say that a certain disposition, excitement, or whatever you call it, is at times a help—at times a hindrance to me. But, then, it is possible for us to give an exact analysis of our state of mind whilst we are playing, to state the exact share of our identity divided between our private character and the one we assume? To state accurately how much I feel that I am my own self, and how much that I am the other person, is a psychological puzzle that I am unable to solve. Of course, I know that I am sometimes more in my part, sometimes more out of it; but why it is so, and how much it is so, I cannot say. And what is more, I strongly suspect that only a very few among my brothers and sisters in art could answer it in regard to themselves.

Gilbert and Sullivan's new opera, *The Gondoliers*, or, *The King of Barataria*, seems to have been received in London with a perfectly unanimous pan of praise. The libretto is in Gilbert's most sparkling vein, and the music light and catchy to an extent not found in Sir Arthur Sullivan's recent composition. Arrangements were perfected for its production at the Park Theatre, New York, on the 7th inst., under the charge of A. M. Palmer. After its run of a few weeks at the Park it is to be transferred to Palmer's, Francis Wilson and his company will be the first to present it at Philadelphia. John Stetson puts two companies on the road to produce the opera east of Pittsburgh, while Manager David Henderson, of the Chicago Opera-house, starts three companies on the road for the western cities. In due time, therefore, Los Angeles will have a chance to hear the new success.

There is a hard-headed capitalist in New York who knows and is known by all first-nighters, and has provided the financial backbone for more than one big venture, unsuspected by all, save his closest friends. Of late he has been a pronounced bear on foreign entertainments, and it must be admitted, says A. P. Dunlop in his *Stage News*, that his arguments are good. "There is no money in them for us," said he. "Look at Coquelin, for instance. Manager Abbey lost heavily on him, as I know he would, yet Coquelin stands without a peer as a comedian. When an actor comes among us for art's sake alone, it means a dear experience for his manager. There is Salvini. He has only one play that our people care to see, and that is *Othello*. They know the play, have seen other actors do it, and simply want to see Salvini for the purpose of comparing his characterization with somebody else's. It is not to study his art methods; they don't care a rap for that. If they did, his representations would be as well patronized as this one. Rossi was a big failure here, as everybody remembers, and Bernhardt would also play to losing business. If she was not surrounded by a certain glamor that scandal and eccentricity have given her. She is a great artist, but, if she depended upon art alone, she would go home many thousands of dollars poorer than when she came over. None of the English companies will take back much money with them."

Mr. Dunlop's interlocutor does not seem to take into account that Wilson Barrett and the Kendals, especially the latter, are making barrels of money in this country now, and that Langtry has already made a fortune here. His objection may be good in so far as it affects foreign artists who do not speak English like those he quotes, but the fact remains that English artists have been and are patronized and encouraged in this country to a greater extent than they always deserve.

A leading New York paper says: "Marie Wainwright's production of *Twelfth Night*, at the Fifth Avenue Theatre, has won perhaps more general praise than any other presentation of Shakespearean comedy during recent years. Her personation of 'Viola' is marked by the distinction and elegance of manner which are among the most marked characteristics in both the pathetic and humorous portions, she is delightful, and far excels any

"Viola" we have had in this country since Neilson. The cast throughout is excellent, and more especially so in the 'Malvollio' of Barton Hill. The scenery and costumes are superb."

Miss Ada Rehan, Augustin Daly's leading lady, is only 28, Fanny Davenport is 39, Lotta is 42, Maggie Mitchell is 47, Januscheck and Mrs. Bowers are 59, Mrs. G. H. Gilbert 67, and dear old Mrs. John Drew 71 years of age. Pauline Lucca is 49, Adelina Patti and Christine Nilsson 46, Sara Bernhardt and Modjeska 45, Ellen Terry 44, Clara Morris 43, Mrs. Langtry 39 and Mary Anderson just 30.

Charles Fisher is 72, Dion Boucicault is 63, Joseph Jefferson is 60, W. J. Florence 57, Edwin Booth is 56, Henry Irving, Augustin Daly and Lawrence Barrett 51, Coquelin 50, James Lewis 49, Ed Harrigan 44, Campanini 43, John Drew 36 and Henry E. Dixey exactly 30.

A partnership has been formed between Charles Abbott and Ben Teal. Abbott is the husband and manager of Maggie Mitchell, and he will be aided in the firm's ventures by an extensive capital. Teal is a stage manager and playwright of valuable experience and of proven skill. The new firm propose to control their own plays, presenting themselves as theatrical companies organized by themselves, and generally aiming at long runs in big cities, rather than the conventional peregrinations on the circuits. The first play will be a local drama, domestic in theme, by Dion Boucicault and Mr. Teal, who thus come together as collaborators for the first time. The piece will be put on the stage of a New York theater about February or March. There will be especial interest in its production, because Boucicault has had no American collaborator before this. Indeed, it is a surprise to hear that he has at last permitted himself to take a co-worker of native birth.

In local theatrical matters during the past week we have had the disappointment of an opera season from the Emma Juch Company, which it is hoped will be made up to us about the 27th inst. J. M. Hill's Union Square attraction in *A Possible Case* gave great satisfaction and drew good houses, considering that they gave no change of bill. This week the Los Angeles Theater will be closed, and the Grand Opera-house will be occupied by *Leavitt's Spider and the Fly*, a musical extravaganza, full of specialties and funny business. Just how funny it will be the large audience which always turns out to shows of this kind at first nights in Los Angeles will find out for itself. The names of the leading members of the company have been heretofore given, and indicate that the piece has some talent to support it.

MUSIC.

Anton Rubinstein heard from on the Prospect of Musical Art. Rubinstein gave expression to his peculiar views in an interview published recently in the *Pall Mall Gazette*. Being asked when he would return to England and the concert stage, he replied: "Oh, never, never, never! I am done with all that. It is a bad time for art; and, as regards music, we are in a melancholy state, for it is with us now just as it was in the eighteenth century with painting—an absolute standstill."

"But how?" "Why, because there are no geniuses—absolutely none. If we have a new composition, what is it? Either popular airs arranged as symphonies or anything you wish for at a day's notice, without exercise in counterpoint, without melody, passion or beauty; all, of course, if you argue over it, correct, but wearisome enough to make one bite one's tongue away with impatience. And the reason of it is, do you know what it is? The women, the women, they are neither poetical, naive nor ingenious; but learned, questioning, reasoning. In fact, today we have no Ophelias, no Julietas, no Gretchenas, for every girl is a counterpoint and every married woman a fugue."

"In other words, you mean that this is a practical age, and that art cannot flourish in it?"

"Yes, yes; that is my meaning."

LOCAL NOTES AND HAPPENINGS.

In local circles the past week has been an unusually quiet one, musically. The fashion of special solos at the churches is being well kept up, and was carried out yesterday by Mrs. Mamie Perry-Davis at the First Presbyterian Church, and at the Cathedral by Miss Jennie Winston and Mr. Louis von Hofe, with a double quartette as assistants. During the week, also, special services will be held at St. Vincent's, where Hayden's sixth mass and other special church music will be heard.

Prof. Pyle, Pasadena's favorite baritone, has just returned from Riverside, where *Iolanthe* was given by home talent. It was not G. Stuart Taylor, the singer, who went east, but Dr. Taylor Stuart. Mr. Taylor still holds his usual studio hours.

Mrs. Willgrove, who went to San Francisco to assist in the choral Christmas music, is expected home this week. Prof. Colberg of the new Los Angeles Conservatory announces a Monday evening musical, open to the general public.

The regular meeting of the S. M. Club takes place tonight, for the last time. New bylaws and election regulations as regards the admission of visitors are to be presented for action by the club. The next meeting will be the first night of the study of Jensen and Bargell, followers of Robert Schumann.

The regular organization of the St. Cecilia Club of Women's Voices was confirmed at their last regular meeting on Thursday afternoon. The chorus will consist of 12 members—with a positive limit to 16. Mrs. J. D. Cole is the leader, Miss Rose Dorsey the accompanist, and the officers, Mrs. J. D. Hooker president and Miss F. Lockhart secretary and treasurer.

Next month Prof. Stamm's chorus and orchestra will present the great oratorio of "Elijah," with some of our local singers as soloists. A concert and lecture will be given at the Hanna College, next Friday evening, by Prof. A. Willhartz. Subject: "Musicians from the Cradle to the Grave." Prof. Willhartz is a fluent speaker, and an entertaining lecturer therefore may be expected from him.

Dramatic and Musical Notes.

Shenandoah, Bronson Howard's latest and most popular play, is still drawing crowded houses in the East. Not only do the critics unite in praising it, but the people who have grown familiar with it continue to visit the theater and see it again and again.

Later in the season Mr. Joseph Wheelock may produce *Ganelon* at the Broadway Theatre, New York, playing Lawrence Barrett's part. *Ganelon* is a

magnificent production, that would have made a fortune for Mr. Barrett. J. K. Emmet appears yet to be the best drawing star on the road; at least he played to more money a few weeks ago than was ever taken at one theater in Pittsburgh. The managers of the Bijou Theater raised their prices, and for the week Mr. Emmet drew \$12,048.25 to the box office.

The boys on the "Bridge of Sighs"—the old Rialto—disrespectfully call Mr. J. M. Hill "J. M. Whiskers." [Dunlop's Stage News.] Verdi is spending the winter in Milan, engaged in making notes for his new opera.

The New York papers stamp Richard Mansfield's revival of *Richard the Third* as the best Shakespearean production of tragedy ever seen in this country. Sydney Rosenfeld has changed the name of his play, which is based on the theological craze, from *A Dear Delusion* to *The Sleeping Stone*.

Fanny Davenport has decided to add *Theodora* to her repertoire next season. Augustin Daly is said to have acquired a third interest in "The Theater Magazine."

A *Midnight Bell* opened to the largest house of the season at the Boston Theater. The play was a big success.

The attempt by the committee to raise a fund for a statue to Lester Wallace has come to grief.

Nat C. Goodwin will produce his new comedy, *Colonel Tom*, by Steele MacKay, during his Boston engagement this week.

Dixey's *Seven Ages* reaches its 100th performance at the Standard Theater, New York, tonight. The Kendalls will likely take home with them to England between \$75,000 and \$100,000 as the fruits of their toil in this country.

H. Grattan Donnelly, the father of *Natural Gas*, *Later On*, etc., has perpetrated another so-called "farce comedy," which he has named *A Pair of Jacks*, and now he is looking for a first-class manager.

THE SCARLET WOMAN.

Wedded to Her Vice, and Doesn't Want to Reform.

Yesterday Detectives Auble and Bowler further investigated the case of Mary Richards or Mary de Grau, as she calls herself, the 17-year-old girl who is now occupying a "crib" on New High street. The girl positively refuses to give up the life she is leading. She says she is a married woman and denies that she was seduced by any one, saying that she knew what she was doing when she entered on a life of shame, and did so for the purpose of retaliating on her husband, whom she said she discovered had been untrue to her. The girl made a statement implicating one or two married women, and said that she did not want to reform. There is a Mexican to whom she turns over the money she earns, and with whom she lives. Cooper, the manager in her house, claims to be employed in a saloon, and says that he can show that he is not a vagrant. The case will probably be brought before the courts today.

Nothing has occurred of late, except, perhaps, the leasing up of the "Innocent" fall of rain, that has afforded to every resident of Los Angeles city and county so much satisfaction as to learn that the management of the Hotel del Coronado will resume their delightful excursions from Los Angeles to that charming and fascinating place. Round trip tickets, including two days' board and the privilege of attending the grand ball at the hotel, are on sale for \$5.00. CITY BRIEFS.

There were 95 prisoners in the tanks at the County Jail last evening at 7 o'clock.

The Park Greys base-ball club defeated the Boyle Heights yesterday by a score of 5 to 4.

F. M. Garrett being duly installed in San Quentin, has found a field of usefulness in stripping jute.

The cable road did a good business yesterday, the cars being well filled during most of the afternoon.

Yesterday was very quiet in police circles, not a single arrest of importance being made during the entire day.

The County Jail presented a clean register last evening, a single prisoner having been brought in during the day.

Merrill Lodge, I. O. G. T., will hold an open meeting tonight in their hall, in the Temperance Temple. A good programme has been arranged.

There are undelivered telegrams at the Western Union Telegraph office for Miss Mary A. F. Miller, J. L. Chase, Christin Braken and Chas. Riegel.

The Southern Pacific from the East did not come in last night, and a train was made up here, which left for the north at 10:40. The delay was caused by a snowstorm beyond Yuma, Ariz., and did not reach Yuma until 12 o'clock last night. It will reach this city this afternoon.

Jimmy Galvin, late of London, England, came to the Trinity office last night, to say that he was anxious to meet any middle-weight for a reasonable purse or the gate receipts. Galvin would prefer to meet Billy Manning, as he considered him in his class, but says that he is not particular whom he fights, so he is not above 150 pounds.

Last night between 8 and 9 o'clock a bad negro named George Redding raised a disturbance on Alameda street, and when the officers attempted to arrest him he threw a rock at them and started on a run up the street. He was overhauled after an exciting chase, at the corner of Aliso street, when he began abusing the officers, using the lowest and vilest language. The patrol wagon was sent for and the negro was taken to the police station, where he was locked up on a charge of disturbing the peace.

The Anaheim Budget of the 11th says: "Frank Lamoree, the youth of unmitigated gall, who was parading in town about two weeks since representing himself as Frank Leconte, of the Farmers and Merchants' Bank of Los Angeles, is up to his old tricks in Los Angeles, and the police are on the qui vive for him. Two or three merchants in Anaheim and Fullerton advanced money on his checks, but afterward found them to be worthless. The unsuspecting public should keep their eyes peeled and not allow themselves to be taken in by such scamps."

Lamoree is now in jail on a charge of forgery, but will probably be adjudged insane, as there is no doubt that his mind is unsettled.

PERSONAL NEWS.

Frank C. Young of Whittier has rooms at the Hollenbeck.

J. L. Sanborn of San Bernardino is registered at the Hollenbeck.

Henry J. Rogers, Henry K. Belden and H. M. McKee of San Francisco are at the Hollenbeck.

ALHAMBRA.

Notes of Interest in the Suburban Town.

ALHAMBRA, Jan. 11.—[Correspondence of THE TIMES.] Porter Bros. & Co. of San Francisco are expressing their good will in the new year by sending to the orange-growers in this vicinity an elegant calendar for 1890.

S. D. Crow has resigned as constable of this township, as he contemplates an absence in Arizona. A petition has been filed with the Board of Supervisors, asking that George S. Fleming be appointed to fill the vacancy.

Monday evening the Sunday-school children of the Methodist Church held their post-Christmas festivities in the A. O. U. W. Hall. There was candy, popcorn and a happy time among the little ones.

The Presbyterian Sunday-school prevented from observing Christmas eve by the elements, made up on New Year's eve for the delay, in Pomeroy's Hall. Corn popped in a Francoise and candy served a la Americaine served to while away the happy hours.

Johnson's Hall was the scene of athletic sweetness New Year's night. The Methodist people indulged in an old-fashioned cannon pull, teeth being filled to the satisfaction of both old and young. Those that went to the dentist had their teeth turned over a new leaf, and won't do any more.

Nicholas Anuenag Morjickian can lay claim as the champion tramp, having traveled from Armenia, in Asia Minor, to Springfield, O., on St. Mr. Morjickian is a native of Armenia, was converted to the Christian church, and made his way to Springfield to obtain an education; has spoken several times in the Alhambra Methodist Church; has been prevented twice from delivering a lecture on account of the rain, and still with patience abides his time.

The city of Los Angeles is wholly to blame for the present horrible condition of the city. The city of Alhambra, as the portion so thoroughly bad is within the city limits. The old lad should, however, have his due, for in this instance the work of grave-digging has been ordered by the City Council, and stakes had been driven but the rains came, with a result—that that road is worse than ever, and the mud, carried by wheels onto the gravelled portion of the county road, making that in fearful condition also.

The way to make money is to save it. Hood's Sarsaparilla is the most economical medicine to buy, as it is the only one of which can truly be said, "100 doses one dollar." Do not take any other preparation if you have decided to buy Hood's Sarsaparilla.

Removed! Removed! The latest and best in the city, where the best will be pleased to see their customers. Great cut in prices to close out winter stock.

Successfully treated by

M. HILTON WILLIAMS,

M. D., M. C. P. S. O.

By his Hot Air Medicated Inhalations and his Compound Oxygen Treatment.

CATARH and CONSUMPTION, etc., are not cured by all scientific investigators to originate from a living germ or parasite so small as to be invisible, except when placed under a powerful microscope.

Our hot air medicated inhalations absolutely kill and destroy every living germ millions of which are found floating in the atmosphere, or after the death of the patient found lodged in the mucous surface lining the air passages, while our compound oxygen treatment drives the system from the blood, no matter from what cause it exists or how long it has continued, and is immediately the cause of Catarrh, Stricture, Gonorrhea, Gleet, Syphilis, Consumption, Nervous Prostration, Locomotor Ataxia, and all diseases of the blood.

In all cases of catarrh and other diseases of the Respiratory Organs, where the system suffers from the deleterious effects of secretions, and in every condition of the blood, local treatment is invariably conjoined with constitutional remedies.

Persons desiring treatment by this system of practice can use the remedies at home as well as at our office, and which will cause no inconvenience or hindrance to business whatsoever.

Those who desire to consult with me in regard to their cases had better call at the office for an examination, but if impossible to visit the office personally, can write for list of questions and circular, both of which will be sent free of charge. Address
